Solving the BIGGEST problems today

01

Hosting

- ❖ 100% Free
- ❖ Multi-tenant
- ❖ Kubernetes cluster
- ❖ Micro services

02

Storage

- ❖ Filter vs Split
- ❖ Identity Mgmt
- ❖ App Schemas
- ❖ Multimedia

03

Customize

- ❖ Admin Portal
- ❖ White label
- ❖ Community Groups

04

Updates

- ❖ Shared Features
- ❖ Global CI/CD
- ❖ Custom Dev

Feature Development
Pyramid

Share new features across all apps.

Depending on what new functionality is built, you will instantly have access to new functionality for your apps.

For example: New login providers | Payment integrations | Reporting | AI Agents
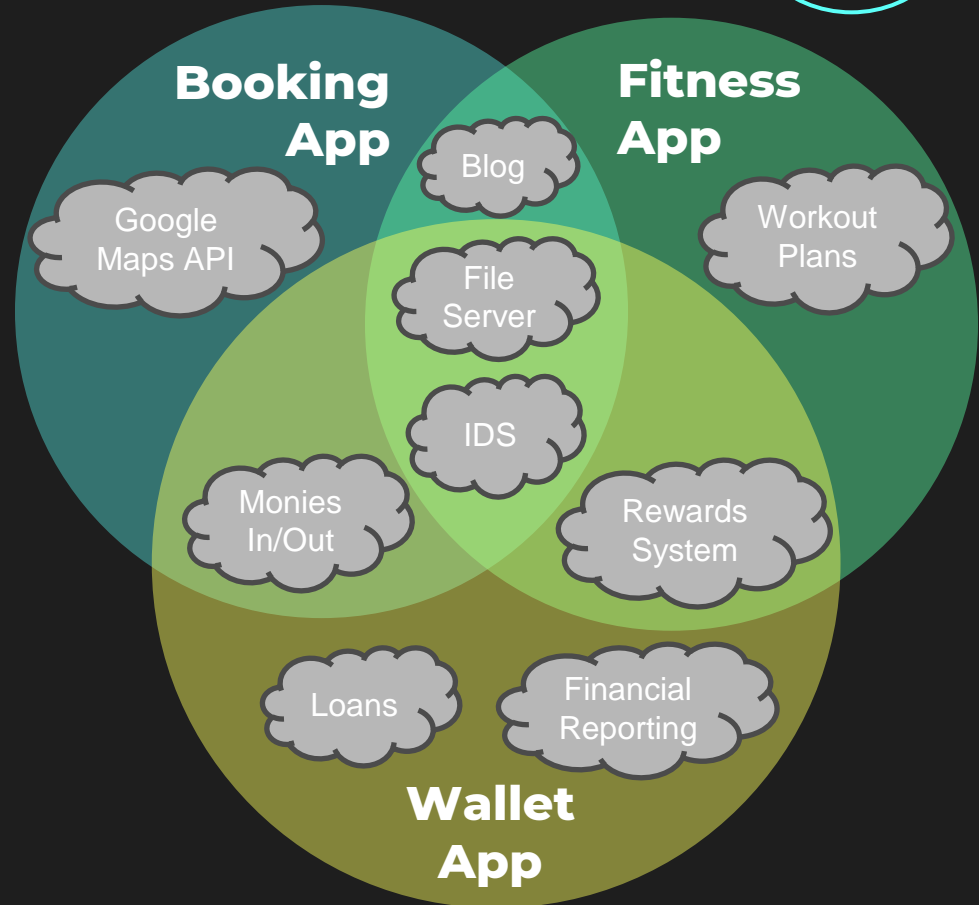

Feature Overlap

In most cases, new features are built over to support a specific app.

With AppWorld Marketplace we have the ability to overlap and share new features across apps.

Here is an example of how a Booking App, Fitness App and Wallet App shares overlapping features.

Booking App

Fitness App

Wallet App

Blog

Google Maps API

Workout Plans

File Server

IDS

Monies In/Out

Rewards System

Loans

Financial Reporting

AppWorld Demo

See how easy it is to create your own SaaS App. In this demo we showcase some of our features like how we create an app from the marketplace, deploy the app and customize content.

AppWorld SaaS Overview

Shop (Base App)	POC	App Link	App Link	Website
Medical (Base App)	POC	App Link	App Link	Website
Wallet (Base App)	POC	App Link	App Link	Website

FAQ

Is there a limit to how many Apps I can create?
- ❖ There is no limit at this point. However costing will apply for each inidivdual app created on your profile.

Can I get API access?
- ❖ Yes, you can visit https://appworldsa.com/#/api for our documentation.

Will I need to pay for new features?
- ❖ No, all new features will be available to your apps, but there may be some features that have been developed specifically for a client that will be kept exclusively for their use.

How long will it take to build a new App for me?
- ❖ Usually between 1-2 weeks, but depending on the features that your app needs, it may take up to 6 months.

Do I own my app and user data?
- ❖ The information stored will be owned by the platform and managed by the owner. We do not share our information with any 3rd party as per our Privacy Policy. If you need access to the information stored by the platform other that that which can be managed by the administrator, we will need to update your apps terms and policies as per requirement.
